Fundamentals of Electricity

A CraFting Guidebook

Introduction to Thunder and 5-Essence CraFting

(C) v2.3.0 "Pikachu" Kami North Publishing, LLC.

Preface

All content found within this guide applies for things created as of time this is published (v2.3.0 - Pikachu). As later content is released, it will **not** be restricted to the guidelines labeled in this document. An extension is planned to release as more content is added.

3-Essence Powerups

The **Thunder** essence, and all essences going forward, are released with at minimum 4 powerups, as all essences will be able to combine with the 4 primary elements (**Fire**, **Water**, **Wind**, **Ground**). In a similar pattern to historic releases, these patterns will also be invertible, that is, 2 of one essence and 1 of the other, regardless of which.

The main gimmick behind **Thunder** is 4772019200, 2 49749191017477720 701 2207 220010777 920790970200... 207 077 29701 0907 920 2209 220707: 024200242 9901077... 07777 277 00019-0700 00077000: 0720 9207 00019007 0200701: 0720 277200 7077700... 079: 4772007: 220 7049019200 207 77220994 97777 701 420 9700 700702 2207 0200701 220 00000000001 99002207007... 07 9700 701 2207 2 2797207: 009 99200...
